9 IN RE: Bard IVC Filters Products  
10 Liability Litigation,  
11  
12

No. MDL 15-02641-PHX-DGC

13  
14  
15  
16 **SUGGESTION OF REMAND AND**  
17 **TRANSFER ORDER (SECOND)**  
18  
19

20 This multidistrict litigation proceeding (“MDL”) involves personal injury cases  
21 brought against Defendants C. R. Bard, Inc. and Bard Peripheral Vascular, Inc.  
22 (collectively, “Bard”). Bard manufactures and markets medical devices, including  
23 inferior vena cava (“IVC”) filters. The MDL Plaintiffs have received implants of Bard  
24 IVC filters and claim they are defective and have caused Plaintiffs to suffer serious injury  
25 or death.

26 The MDL was transferred to this Court in August 2015 when 22 cases had been  
27 filed. Doc. 1. More than 8,000 cases had been filed when the MDL closed on May 31,  
28 2019. Docs. 18079, 18128. Thousands of cases pending in the MDL have settled in  
principle or are near settlement. *See* Docs. 16343, 19445, 19798. The remaining cases  
no longer benefit from centralized proceedings.

On August 20, 2019, the Court suggested the remand of 35 cases that were  
transferred to this MDL by the United States Judicial Panel for Multidistrict Litigation  
(the “Panel”). Doc. 19899 at 2-3, 34-35. The Court transferred more than 500 cases that  
were directly filed in the MDL to appropriate districts. *Id.* at 3-6, 36-59.

1 In updated reports on the settlement status of cases, the parties identify more than  
 2 300 cases that are no longer likely to settle. Docs. 20061, 20623. An additional 100  
 3 cases that were recently served on Defendants are also unlikely to settle. Doc. 20209.  
 4 These cases are now subject to remand or transfer.

5 The case listed on Schedule A should be remanded to the transferor court pursuant  
 6 to 28 U.S.C. § 1407(a). *See* Doc. 20061-1. The Court therefore provides this Suggestion  
 7 of Remand to the Panel. The cases listed on Schedule B, which were directly filed in this  
 8 MDL, will be transferred to appropriate districts pursuant to 28 U.S.C. § 1404(a). *See*  
 9 Docs. 20061-2, 20209-2, 20623 at 2. To assist the courts that receive these cases, this  
 10 order will describe events that have taken place in the MDL. A copy of this order, along  
 11 with the case files and materials, will be available to courts after remand or transfer. The  
 12 two cases listed on Schedule C will be unconsolidated from the MDL and will remain in  
 13 the District of Arizona.

#### 14 **I. Suggestion of Remand.**

##### 15 **A. Remand Standard.**

16 The power to remand MDL cases rests solely with the Panel. 28 U.S.C. § 1407(a);  
 17 *see Lexecon Inc. v. Milberg Weiss Bershad Hynes & Lerach*, 523 U.S. 26, 28 (1998).  
 18 The Panel typically relies on the transferee court to suggest when remand is appropriate.  
 19 *See* J.P.M.L. Rule 10.1(b)(i); *In re Motor Fuel Temperature Sales Practices Litig.*,  
 20 No. 07-MD-1840-KHV, 2012 WL 1963350, at \*1 (D. Kan. May 30, 2012). Indeed, the  
 21 Panel “is reluctant to order a remand absent the suggestion of the transferee judge[.]”  
 22 J.P.M.L. Rule 10.3(a); *see In re Regions Morgan Keegan Sec., Derivative & ERISA*  
 23 *Litig.*, No. 2:09-md-2009-SHM, 2013 WL 5614285, at \*2 (W.D. Tenn. Feb. 28, 2013).  
 24 The transferee court may suggest remand when a case is “ready for trial, or . . . would no  
 25 longer benefit from inclusion in the coordinated or consolidated pretrial proceedings.”  
 26 *In re Multi-Piece Rim Prods. Liab. Litig.*, 464 F. Supp. 969, 975 (J.P.M.L. 1979); *see*  
 27 *In re TMJ Implants Prods. Liab. Litig.*, 872 F. Supp. 1019, 1038 (D. Minn. 1995).

**B. The Panel Should Remand the Case Listed on Schedule A.**

The primary purposes of this MDL – coordinated pretrial discovery and resolution of common issues – have been fulfilled. All common fact and expert discovery has been completed. The Court has also resolved many *Daubert* motions and Defendants’ summary judgment motion based on preemption, as well as other summary judgment and in limine motions in the bellwether cases. Three bellwether jury trials were held, and the parties prepared for a fourth that settled on the eve of trial.

The MDL case listed on Schedule A is not likely to settle soon and no longer benefits from centralized proceedings. The remaining case-specific issues are best left to the transferor court to resolve. The Court therefore suggests that the Panel remand the case on Schedule A to the transferor court – the Southern District of Indiana – for further proceedings. *See* Doc. 20061-1; *In re TMJ Implants*, 872 F. Supp. at 1038 (suggesting remand of cases that no longer benefited from consolidated pretrial proceedings).

**II. Transfer Under 28 U.S.C. § 1404(a).**

**A. Transfer Standard.**

Section 1404(a) provides that “[f]or the convenience of parties and witnesses, in the interest of justice, a district court may transfer any civil action to any other district or division where it might have been brought or to any district or division to which all parties have consented.”

**B. The Direct-Filed Cases Listed on Schedule B Will Be Transferred.**

Not all MDL cases were transferred to the Court by the Panel. Pursuant to Case Management Order No. 4 (“CMO 4”), many cases were filed directly in the MDL through use of a short form complaint. Doc. 363 at 3 (as amended by Docs. 1108, 1485). Plaintiffs were required to identify in the short form complaint the district where venue would be proper absent direct filing in the MDL. *See id.* at 7. CMO 4 provides that, upon the MDL’s closure, each pending direct-filed case shall be transferred to the district identified in the short form complaint. *Id.* at 3.

Pursuant to § 1404(a), the Court will transfer the cases listed on Schedule B to the districts identified in the short form complaints. *See* Doc. 20061-2; *In re Biomet M2a Magnum Hip Implant Prods. Liab. Litig.*, No. 3:12-MD-2391, 2018 WL 7683307, at \*1 (N.D. Ind. Sept. 6, 2018) (transferring cases under § 1404(a) where they would “no longer benefit from centralized proceedings[] and the remaining case-specific issues are best left to decision by the courts that will try the cases”). Defendants’ right to challenge venue and personal jurisdiction upon transfer is preserved. *See* Doc. 19899 at 4-6.

### **III. The MDL Proceedings.**

A summary of the MDL proceedings is provided below to assist courts on remand, if ordered by the Panel, and courts receiving transfers under § 1404(a). CMOs, discovery orders, and other significant rulings are listed in Exhibit 1. The status of the remaining case-specific discovery and other pretrial issues in individual cases should be addressed by the courts receiving the cases on remand or transfer.

#### **A. Plaintiffs’ Claims and the Pleadings.**

The IVC is a large vein that returns blood to the heart from the lower body. An IVC filter is a small device implanted in the IVC to catch blood clots before they reach the heart and lungs. This MDL involves multiple versions of Bard’s retrievable IVC filters – the Recovery, G2, G2X, Eclipse, Meridian, and Denali. These filters are umbrella-shaped devices that have multiple limbs fanning out from a cone-shaped head. The limbs consist of legs with hooks that attach to the IVC wall and curved arms to catch or break up blood clots. Each of these filters is a variation of its predecessor.<sup>1</sup>

The MDL Plaintiffs allege that Bard filters are more dangerous than other IVC filters because they have higher risks of tilting, perforating the IVC, or fracturing and migrating to vital organs. Plaintiffs further allege that Bard failed to warn patients and

---

<sup>1</sup> In early 2019, Defendants moved to expand the scope of the MDL to include cases concerning Bard’s Simon Nitinol Filter (“SNF”), a permanent device that predated the other filters in this litigation. The Panel denied the motion as moot because more than 80 SNF cases already had been filed in the MDL. None of the SNF cases are subject to this order.

1 physicians about these higher risks. Defendants dispute these allegations, contending  
 2 that Bard filters are safe and effective, that their complication rates are low and  
 3 comparable to those of other IVC filters, and that the medical community is aware of the  
 4 risks associated with IVC filters.

5 CMO 2, entered October 30, 2015, required the creation of a master complaint, a  
 6 master answer, and templates of short-form complaints and answers. Doc. 249 at 6. The  
 7 master complaint and answer were filed December 12, 2015. Docs. 364, 366. They are  
 8 the operative pleadings for most of the cases in this MDL.

9 The master complaint gives notice, pursuant to Rule 8, of the allegations that  
 10 Plaintiffs assert generally. The master complaint contains seventeen state law claims:  
 11 manufacturing defect (Counts I and V); failure to warn (Counts II and VII); design defect  
 12 (Counts III and IV); failure to recall (Count VI); misrepresentation (Counts VIII  
 13 and XII); negligence per se (Count IX); breach of warranty (Counts X and XI);  
 14 concealment (Count XIII); consumer fraud and deceptive trade practices (Count XIV);  
 15 loss of consortium (Count XV); and wrongful death and survival (Counts XVI and XVII).  
 16 Doc. 364 at 34-63. Plaintiffs seek both compensatory and punitive damages. *Id.* at 63.

17 Plaintiff-specific allegations are contained in individual short-form complaints or  
 18 certain complaints served on Defendants before the filing of the master complaint. *See*  
 19 Docs. 249, 363, 365. Plaintiffs also provided Defendants with profile forms and fact  
 20 sheets that describe their individual claims and conditions. *See* Doc. 365.

## 21 **B. Case Management Orders.**

22 The primary orders governing pretrial management of this MDL are a series  
 23 of CMOs, along with certain amendments. To date, the Court has issued 45 CMOs.  
 24 These orders are discussed below and can be found on this District's website at  
 25 <http://www.azd.uscourts.gov/case-info/bard>.

## 26 **C. Lead Counsel.**

27 CMO 1, entered October 30, 2015, appointed Co-Lead/Liaison Counsel for  
 28 Plaintiffs ("Lead Counsel") to manage the litigation on behalf of Plaintiffs, and set out

1 the responsibilities of Lead Counsel. Doc. 248. Plaintiffs' Lead Counsel has changed  
 2 since the inception of the MDL. Mr. Ramon Lopez, of Lopez McHugh, LLP, in Newport  
 3 Beach, California, and Mr. Mark O'Connor, of Beus Gilbert PLLC, in Phoenix, Arizona,  
 4 are now Lead Counsel for Plaintiffs. Doc. 5285. Mr. Richard North of Nelson Mullins  
 5 Riley & Scarborough, LLP, in Atlanta, Georgia, is Defendants' Lead Counsel.

#### 6 **D. Plaintiffs' Steering Committee and Common Benefits Fund.**

7 CMO 1 directed the selection and appointment of a Plaintiffs' Steering Committee  
 8 ("PSC") to assist in the coordination of pretrial activities and trial planning. Plaintiffs'  
 9 Lead Counsel and the PSC together form the Plaintiffs' Leadership Counsel ("PLC").  
 10 The PLC assists all Plaintiffs in the MDL by overseeing discovery, appearing in court,  
 11 attending status conferences, and preparing motions and responses regarding case-wide  
 12 discovery matters. CMO 1 has been amended to select and appoint a Plaintiffs'  
 13 Executive Committee ("PEC") to assist Lead Counsel in the administration, organization,  
 14 and strategic decisions of the PLC. Doc. 4016. The configuration of the PSC has  
 15 changed during the course of the litigation. *See* Docs. 248, 4016, 5285.

16 CMO 6, entered December 18, 2015, set forth rules, policies, procedures, and  
 17 guidelines for fees and expenses incurred by attorneys acting for the common benefit of  
 18 all MDL Plaintiffs. Doc. 372. In May 2019, the Court increased the common benefit  
 19 attorneys' fees assessment from 6% to 8%, but declined to increase the 3% assessment  
 20 for costs. Doc. 18038.

21 Upon remand or transfer, individual Plaintiffs likely will be represented by their  
 22 own counsel – the attorney or attorneys who filed their original complaint. Plaintiffs'  
 23 Lead Counsel, the PSC, the PLC, and the PEC were tasked with managing the MDL for  
 24 Plaintiffs, not the individual cases on remand or transfer.

#### 25 **E. Status Conferences.**

26 Since the inception of the MDL, the Court has held regular status conferences with  
 27 Lead Counsel for the parties to discuss issues related to the litigation. The initial case  
 28 management conference was held in October 2015. Doc. 246. Deadlines were set for,

1 among other things, the filing of master and short-form pleadings, profile forms, a  
2 proposed protective order (including Rule 502 provisions), a proposed protocol  
3 governing the production of electronically stored information (“ESI”), as well as  
4 deadlines to complete first-phase MDL discovery and address privilege log issues.  
5 Doc. 249. Thereafter, the Court held periodic status conferences to ensure that the parties  
6 were on task and to address routine discovery issues and disputes. In addition to the  
7 status conferences, the Court conducted telephone hearings to address time-sensitive  
8 issues, as well as numerous additional conferences to consider various matters such as  
9 dispositive motions and general case management issues.

10 **F. Discovery.**

11 **1. General Fact Discovery.**

12 Prior to the establishment of this MDL, Plaintiffs’ counsel had conducted  
13 substantial discovery against Bard concerning all aspects of Bard IVC filters, including  
14 the design, testing, manufacturing, marketing, labeling, and post-market surveillance of  
15 the devices. Bard produced numerous documents and ESI and responded to thousands of  
16 written discovery requests, and more than 80 corporate witness depositions were taken.  
17 The pre-MDL fact discovery was made available by Bard to all Plaintiffs in the MDL.

18 CMO 8 established a procedure concerning re-deposing witnesses in the MDL.  
19 Doc. 519. CMO 14 established deposition protocols generally. Doc. 2239. The Court  
20 allowed additional depositions of a handful of corporate witnesses that had been  
21 previously deposed, as well as numerous depositions of other Bard corporate witnesses,  
22 including several Rule 30(b)(6) depositions. Docs. 3685, 4311. CMO 9 governed the  
23 production of ESI and hard-copy documents. Doc. 1259.

24 Discovery in the MDL was separated into phases. The parties completed the first  
25 phase of MDL discovery in early 2016. Doc. 519. The first phase included production of  
26 documents related to an FDA inspection and warning letter to Bard, an updated  
27 production of complaint and adverse event files, and an updated version of Bard’s  
28 complaint database relating to IVC filters. Doc. 249. Plaintiffs also conducted a Rule

1 30(b)(6) deposition concerning the FDA inspection and warning letter, and a deposition  
2 of corporate witness Kay Fuller.

3 The parties completed the second phase of fact discovery in February 2017. CMO  
4 8 set deadlines for the second phase, which included all common fact and expert issues in  
5 the MDL, but not case-specific issues to be resolved after remand or transfer. Docs. 249,  
6 519. Second-phase discovery included extensive additional discovery related to Bard's  
7 system architecture for ESI, Bard's ESI collection efforts, ESI relating to Bard's IVC  
8 filters, and Bard's national and regional sales and marketing practices. Plaintiffs also  
9 deposed two corporate witnesses in connection with Kay Fuller's allegations that a  
10 submission to the FDA regarding the Recovery filter did not bear her original signature.  
11 Doc. 1319 (CMO 10). Plaintiffs deposed additional corporate witnesses concerning the  
12 FDA inspections and warning letter. *Id.*

13 Bard also produced discovery regarding the sales and marketing materials related  
14 to the SNF, documents comparing filter performance and failure rates to the SNF, and  
15 internal and regulatory communications relating to the SNF. Docs. 1319, 10489. The  
16 Court denied Plaintiffs' request to obtain ESI discovery from Bard's overseas operations.  
17 Doc. 3398. The Court also denied Defendants' request to discover communications  
18 between Plaintiffs' counsel and NBC news related to stories about the products at issue in  
19 this litigation, and third-party financing that may be in place with respect to MDL  
20 Plaintiffs. Docs. 3313, 3314. Plaintiffs were required to produce communications  
21 between Plaintiffs and the FDA related to the FDA warning letter, but the Court denied  
22 Defendants' request to depose Plaintiffs' counsel regarding these communications.  
23 Docs. 3312, 4339. Defendants also produced punitive damages discovery, and Plaintiffs  
24 conducted a Rule 30(b)(6) deposition related to Bard's net worth.

25 All common fact discovery has now been completed except for preservation  
26 depositions for certain witnesses who will not be traveling to testify live at the trials of  
27 remanded and transferred cases. The parties are engaged in a meet and confer process as  
28 to these depositions and shall complete them by December 1, 2019. *See* Doc. 16343

(CMO 42, as amended by Doc. 19959). Thus, courts receiving these cases need not be concerned with facilitating general fact discovery on remand or transfer.

## 2. Case-Specific Discovery.

CMO 5 governed initial case-specific discovery and required the parties to exchange abbreviated profile forms. Doc. 365 (as amended by Doc. 927). Plaintiffs were required to provide Defendants with a Plaintiff profile form (“PPF”) that described individual conditions and claims. *Id.* at 5-9. Upon receipt of a substantially complete PPF, Defendants were required to provide the individual Plaintiff with a Defendants’ profile form (“DPF”) that disclosed information and documents concerning Defendants’ contacts and relationship with Plaintiff’s physicians, tracking and reporting of Plaintiff’s claims, and certain manufacturing related information for Plaintiff’s filter. *Id.* at 12-14. Completed profile forms were considered interrogatory answers under Rule 33 or responses to requests for production under Rule 34, and were governed by the standards applicable to written discovery under Rules 26 through 37. *Id.* at 2-3. CMO 5 also set deadlines and procedures for resolving any purported deficiencies with the parties’ profile forms, and for dismissal of cases that did not provide substantially completed profile forms. *Id.* at 2.<sup>2</sup>

Further discovery was conducted in a group of 48 cases (“Group 1”) selected for consideration in the bellwether trial process from the pool of cases filed and properly served on Defendants in the MDL as of April 1, 2016 (“Initial Plaintiff Pool”). Docs. 1662, 3214, 4311 (CMOs 11, 15, 19). Plaintiffs in Group 1 were required to provide Defendants with a Plaintiff fact sheet (“PFS”) that described their individual conditions and claims in greater detail, and provided detailed disclosures concerning their individual background, medical history, insurance, fact witnesses, prior claims, and relevant documents and records authorizations. Docs. 1153-1, 1662 at 3.

---

<sup>2</sup> The Court has dismissed certain cases where Plaintiffs failed to provide complete PPFs. *See* Docs. 19874, 20667

1           Upon receipt of a PFS, Defendants were required to provide the individual  
 2 Plaintiff with a Defendants fact sheet (“DFS”) that disclosed in greater detail information  
 3 concerning Defendants’ contacts and relationship with Plaintiff, Plaintiff’s physicians, or  
 4 anyone on behalf of Plaintiff, Defendants’ tracking and reporting of Plaintiff’s claims,  
 5 sales and marketing information for the implanting facility, manufacturing information  
 6 for Plaintiff’s filter, and other relevant documents. Docs. 1153-2, 1662 at 3. Completed  
 7 fact sheets were considered interrogatory answers under Rule 33 or responses to requests  
 8 for production under Rule 34, and were governed by the standards applicable to written  
 9 discovery under Rules 26 through 37. Doc. 1662 at 3. CMO 11 set deadlines and  
 10 procedures for resolving any purported deficiencies with the parties’ fact sheets. *Id.* at 2,  
 11 4-5. CMO 12 governed records discovery for Group 1. Doc. 1663. The parties agreed to  
 12 use The Marker Group to collect medical, insurance, Medicare, Medicaid, prescription,  
 13 Social Security, workers’ compensation, and employment records for individual plaintiffs  
 14 from third-parties designated as custodians for such records in the PFS. *Id.* at 1.

15           From Group 1, twelve cases were selected for further consideration as bellwether  
 16 cases (“Discovery Group 1”). Docs. 1662, 3685, 4311 (CMOs 11, 18, 19). CMO 20 set  
 17 deadlines for preliminary case-specific discovery in that group. Doc. 4335. Pursuant to  
 18 the protocols set in CMOs 14 and 21, the parties were permitted to depose each Plaintiff,  
 19 his or her spouse or a significant family member, the implanting physician, an additional  
 20 treating physician, and either a Bard sales representative or supervisor. Docs. 2239, 4866  
 21 at 1-2. From Discovery Group 1, six Plaintiffs were selected for potential bellwether  
 22 trials and further case-specific discovery (“Bellwether Group 1”). Docs. 1662, 3685,  
 23 4311, 5770, 11659 (CMOs 11, 18, 19, 23, and 34).

24           Except for the 48 cases in Group 1, the parties did not conduct case-specific fact  
 25 discovery for the cases listed on Schedules A and B during the MDL proceedings, other  
 26 than exchanging abbreviated profile forms. The Court concluded that any additional  
 27 case-specific discovery in these cases should await their remand or transfer. Thus, courts  
 28 receiving these cases should set a schedule for the completion of case-specific discovery.

1                   **3. Expert Discovery.**

2           CMO 8 governed expert disclosures and discovery. Doc. 519. The parties  
3 designated general experts in all MDL cases and case-specific experts in individual  
4 bellwether cases. General expert discovery closed July 14, 2017. Doc. 3685 (CMO 18).  
5 The parties did not conduct case-specific expert discovery for the cases listed on  
6 Schedules A and B during the MDL proceedings. The Court concluded that case-specific  
7 expert discovery in these cases should await their remand or transfer. Thus, courts  
8 receiving these cases should set a schedule for the completion of case-specific expert  
9 discovery.

10                   **4. Privileged Materials.**

11           CMO 2 required Defendants to produce privilege logs in compliance with the  
12 Federal Rules of Civil Procedure. Doc. 249. The parties were then required to engage in  
13 an informal privilege log meet and confer process to resolve any privilege disputes.  
14 Defendants produced several privilege logs identifying documents withheld pursuant to  
15 the attorney-client privilege, the work-product doctrine, and other privileges. The parties  
16 regularly met and conferred regarding the privilege logs and engaged in negotiations  
17 regarding certain entries identified by Plaintiffs. As part of that meet and confer process,  
18 Defendants provided Plaintiffs with a small number of these identified items for  
19 inspection and, in some cases, withdrew certain claims of attorney-client privilege and  
20 produced the previously withheld items.

21           CMO 3 governed the non-waiver of any privilege or work-product protection in  
22 this MDL, pursuant to Federal Rule of Evidence 502(d), by Defendants' disclosure or  
23 production of documents on its privilege logs as part of the meet and confer process.  
24 Doc. 314.

25           In late 2015, Plaintiffs challenged a substantial number of documents on  
26 Defendants' privilege log. The parties engaged in an extensive meet and confer process,  
27 and Defendants produced certain documents pursuant to the Rule 502(d) order. *See id.*  
28 Plaintiffs moved to compel production of 133 disputed documents. The Court granted

1 the motion in part. Doc. 2813. The parties identified several categories of disputed  
 2 documents and provided sample documents for in camera review. The Court denied  
 3 Plaintiffs' motion with respect to seven of eight categories of documents and found only  
 4 one of the sample documents in one of the categories to contain unprivileged portions  
 5 that should be produced. The Court found all other documents protected by the attorney-  
 6 client privilege or work product doctrine. The Court directed the parties to use this ruling  
 7 as a guide to resolve remaining privilege disputes.

8 Since this ruling, there have been no further challenges to Defendants' privilege  
 9 logs. Defendants continued to provide updated privilege logs throughout the discovery  
 10 process, and the parties met and conferred to resolve privilege disputes. Privilege issues  
 11 should not be a concern for courts that receive these cases.

#### 12 **5. Protective Order and Confidentiality.**

13 A stipulated protective order governing the designation, handling, use, and  
 14 disclosure of confidential discovery materials was entered in November 2015. Doc. 269.  
 15 CMO 7, entered January 5, 2016, governed redactions of material from additional  
 16 adverse event reports, complaint files, and related documents in accordance with the  
 17 Health Insurance Portability Act of 1996 ("HIPAA") and under 21 C.F.R. § 20.63(f).  
 18 Doc. 401.

19 In September 2016, to expedite production of ESI, the parties agreed to a primarily  
 20 "no-eyes-on" document production as to relevancy while still performing a privilege  
 21 review for this expedited ESI document production. CMO 17 (Doc. 3372) modified the  
 22 protections and requirements in the stipulated protective order (Doc. 269) and CMO 7  
 23 (Doc. 401) for ESI produced pursuant to this process. CMO 17 was amended in  
 24 November 2016. Doc. 4015.

25 Defendants filed a motion to seal certain trial exhibits at the conclusion of the first  
 26 bellwether trial. Doc. 11010. The Court denied this motion and Defendants' subsequent  
 27 motion for reconsideration. Docs. 11642, 11766, 12069. Defendants also filed a motion  
 28 to enforce the protective order for the second and third bellwether trials collectively.

1 Doc. 13126. This motion was denied. Doc. 14446. A list of exhibits admitted at the  
 2 bellwether trials (excluding case-specific medical records) and documents deemed no  
 3 longer subject to the protective order are attached as Exhibit 2.

4 **G. Bellwether Cases and Trials.**

5 Six Plaintiffs were selected for potential bellwether trials. Docs. 5770, 11659  
 6 (CMOs 23, 34). The Court held three bellwether trials: *Booker*, No. CV-16-00474,  
 7 *Jones*, No. CV-16-00782, and *Hyde*, No. CV-16-00893. The Court granted summary  
 8 judgment in one of the bellwether cases, *Kruse*, No. CV-15-01634, and removed another  
 9 from the bellwether trial schedule at the request of Plaintiffs, *Mulkey*, No. CV-16-00853.  
 10 Docs. 12202, 13329. The final bellwether case, *Tinlin*, No. CV-16-00263, settled shortly  
 11 before trial in May 2019. The Court determined that further bellwether trials were not  
 12 necessary. Docs. 12853, 13329 (CMOs 38, 40).

13 **1. *Booker*, No. CV-16-00474.**

14 The first bellwether trial concerned Plaintiff Sherr-Una Booker and involved a  
 15 Bard G2 filter. The filter had tilted, migrated, and fractured. Plaintiff required open  
 16 heart surgery to remove the fractured limbs and repair heart damage caused by a  
 17 percutaneous removal attempt. Plaintiff withdrew her breach of warranty claims before  
 18 Defendants moved for summary judgment. The Court granted Defendants' motion for  
 19 summary judgment on the claims for manufacturing defects, failure to recall,  
 20 misrepresentation, negligence per se, and breach of warranty. Docs. 8873, 8874. The  
 21 remaining claims for failure to warn, design defect, and punitive damages were tried to a  
 22 jury over a three-week period in March 2018.

23 The jury found for Plaintiff Booker on her negligent failure-to-warn claim, and in  
 24 favor of Defendants on the design defect and strict liability failure-to-warn claims.  
 25 Doc. 10595. The jury returned a verdict of \$2 million in compensatory damages (of  
 26 which \$1.6 million was attributed to Defendants after apportionment of fault) and  
 27 \$2 million in punitive damages. *Id.*; Doc. 10596. The Court denied Defendants' motions  
 28 for judgment as a matter of law and a new-trial. Docs. 10879, 11598. Defendants have

1 appealed. Docs. 11934, 11953. Plaintiff filed and later dismissed with prejudice a cross-  
2 appeal. Docs. 12070, 17916.

3 **2. Jones, No. CV-16-00782.**

4 The second bellwether trial concerned Plaintiff Doris Jones and involved a Bard  
5 Eclipse filter. Plaintiffs withdrew the manufacturing defect, failure to recall, and breach  
6 of warranty claims. The Court granted summary judgment on the misrepresentation,  
7 negligence per se, and unfair trade practices claims. Doc. 10404. The remaining claims  
8 for failure to warn, design defect, and punitive damages were tried to a jury over a three-  
9 week period in May 2018. The jury returned a defense verdict. Doc. 11350. Plaintiff  
10 filed a motion to contact the jurors, which was denied. Docs. 11663, 12068. Plaintiff's  
11 appeal of the court's rulings excluding cephalad migration death evidence is pending.  
12 Docs. 12057, 12071.

13 **3. Kruse, No. CV-15-01634.**

14 Plaintiff Carol Kruse's case was set for trial in September 2018. The Court  
15 granted Defendants' summary judgment motion on statute of limitations grounds.  
16 Doc. 12202.

17 **4. Hyde, No. CV-16-00893.**

18 The third bellwether trial concerned Plaintiff Lisa Hyde and involved either a Bard  
19 G2X or Eclipse filter (the exact model was in dispute). Ms. Hyde's case was moved to  
20 the September 2018 bellwether slot in lieu of Ms. Kruse's case. Doc. 11867. Plaintiffs  
21 withdrew their claims for manufacturing defect and breach of express warranty. The  
22 Court granted summary judgment on the claims for breach of implied warranty, failure to  
23 warn, failure to recall, misrepresentation, concealment, and fraud. Doc. 12007. The  
24 Court also entered judgment in favor of Defendants on the negligence per se claim after  
25 concluding that it was impliedly preempted under 21 U.S.C. § 337(a). Doc. 12589. The  
26 remaining claims for design defect, loss of consortium, and punitive damages were tried  
27 to a jury over three weeks in September 2018. After the close of Plaintiffs' evidence, the  
28 Court granted in part Defendants' motion for judgment as a matter of law with respect to

1 future damages for any cardiac arrhythmia Ms. Hyde may experience, but denied the  
 2 motion as to the remaining claims. Doc. 12805. The jury returned a defense verdict.  
 3 Doc. 12891. Plaintiff has appealed. Docs. 13465, 13480.

4 **5. *Mulkey*, No. CV-16-00853.**

5 Plaintiff Debra Mulkey's case involved an Eclipse filter and was set for trial in  
 6 February 2019. Before trial, Plaintiffs asked the Court to remove the Mulkey case from  
 7 the bellwether trial schedule because it was similar to the Jones and Hyde cases and  
 8 would not provide meaningful information to the parties. Doc. 12990. The Court  
 9 granted the motion. Doc. 13329.

10 **6. *Tinlin*, No. CV-16-00263.**

11 The final bellwether trial concerned Plaintiff Debra Tinlin and involved a Bard  
 12 Recovery filter. Plaintiffs withdrew their claims for manufacturing defect, failure to  
 13 recall, negligence per se, and breach of warranty. The Court granted summary judgment  
 14 on the misrepresentation and deceptive trade practices claims. Doc. 17008. The  
 15 remaining claims for failure to warn, design defect, concealment, loss of consortium, and  
 16 punitive damages were scheduled for trial in May 2019, but the case settled.

17 **H. Key Legal and Evidentiary Rulings.**

18 The Court has made many rulings in this MDL that could affect the remanded and  
 19 transferred cases. The Court provides the following summary of key legal and  
 20 evidentiary rulings to assist the courts that receive these cases.

21 **1. Medical Monitoring Class Action Ruling.**

22 In May 2016, Plaintiffs' counsel filed a medical monitoring class action that was  
 23 consolidated with the MDL. *See Barraza v. C. R. Bard, Inc.*, No. CV-16-01374-PHX-  
 24 DCG (D. Ariz. May 5, 2015). The *Barraza* Plaintiffs moved for class certification for  
 25 medical monitoring relief on behalf of themselves and classes of individuals who have  
 26 been implanted with a Bard IVC filter, have not had that filter removed, and have not  
 27 filed a claim or lawsuit for personal injury related to the filter. *Id.*, Doc. 54. The Court  
 28 declined to certify the class. *Id.*, Doc. 95.

1           The class certification motion recognized that only 16 states permit claims for  
 2 medical monitoring. The Court concluded that the classes could not be certified under  
 3 Rule 23(b)(3) because individual issues would predominate. *Id.* at 20-21. The Court  
 4 further concluded that the class could not be certified under Rule 23(b)(2) because the  
 5 medical monitoring relief primarily constituted monetary rather than injunctive relief, and  
 6 the class claims were not sufficiently cohesive to permit binding class-wide relief. *Id.*  
 7 at 21-32. Finally, the Court concluded that typicality under Rule 23(a)(3) had not been  
 8 established. *Id.* at 32-34. The *Barazza* Plaintiffs dismissed their claims without  
 9 prejudice. Docs. 106, 107. No appeal has been filed.

## 10                           **2. Federal Preemption Ruling.**

11           Defendants moved for summary judgment on the grounds that Plaintiffs' state law  
 12 claims are expressly preempted by the Medical Device Amendments of 1976 ("MDA"),  
 13 21 U.S.C. § 360 et seq., and impliedly preempted by the MDA under the Supreme  
 14 Court's conflict preemption principles. Doc. 5396. The Court denied the motion.  
 15 Doc. 8872. Defendants have appealed this ruling. Docs. 11934, 11953.

16           The MDA curtails state regulation of medical devices through a provision that  
 17 preempts state requirements that differ from or add to federal requirements. 21 U.S.C.  
 18 § 360k. The Bard IVC filters at issue in this litigation were cleared for market by the  
 19 FDA through section "510k" review, which focuses primarily on equivalence rather than  
 20 safety and effectiveness. *See* § 360c(f)(1)(A).

21           The Supreme Court in *Medtronic, Inc. v. Lohr*, 518 U.S. 470 (1996), held that  
 22 § 360k does not preempt state law claims directed at medical devices cleared through  
 23 the 510(k) process because substantial equivalence review places no federal requirements  
 24 on a device. *Id.* at 492-94. *Lohr* also noted that the "510(k) process is focused on  
 25 *equivalence*, not safety." *Id.* at 493 (emphasis in original). Although the Safe Medical  
 26 Devices Act of 1990 ("SMDA"), Pub. L. 101-629, injected safety and effectiveness  
 27 considerations into 510(k) review, it did so only comparatively. The Court found that  
 28

1 *Lohr* remains good law and that clearance of a product under 510(k) generally does not  
2 preempt state common law claims. Doc. 8872 at 12-14.

3 The Court further found that Defendants failed to show that the 510(k) reviews for  
4 Bard IVC filters imposed device-specific requirements as needed for preemption under  
5 § 360k. *Id.* at 14-20. Even if device-specific federal requirements could be ascertained,  
6 Defendants made no showing that any particular state law claim is expressly preempted  
7 by federal requirements. *Id.* at 21-22.

8 The Court concluded that Plaintiffs' state law claims are not impliedly preempted  
9 because Defendants failed to show that it is impossible to do under federal law what the  
10 state laws require. *Id.* at 22-24. Defendants are pursuing their preemption arguments in  
11 the Booker appeal.

### 12 **3. The Lehmann Report Privilege and Work Product Rulings.**

13 The Court granted Defendants' motion for a protective order to prevent Plaintiffs  
14 from using a December 15, 2004 report of Dr. John Lehmann. Doc. 699. Dr. Lehmann  
15 provided various consulting services to Bard at different times. Following Bard's receipt  
16 of potential product liability claims involving the Recovery filter, Bard's legal  
17 department retained Dr. Lehmann in November 2004 to provide an assessment of the  
18 risks associated with the Recovery filter and the extent of Bard's legal exposure.  
19 Dr. Lehmann prepared a written report of his findings at the request of the legal  
20 department and in anticipation of litigation. The Court found the report to be protected  
21 from disclosure by the work product doctrine. *Id.* at 4-12. The Court further found that  
22 Plaintiffs had not shown a substantial need for the report or undue hardship if the report  
23 was not disclosed. *Id.* at 13-15. The Court agreed with the parties that this ruling does  
24 not alter any prior rulings by transferor judges in specific cases. *Id.* at 22.

### 25 **4. Daubert Rulings.**

26 The Court has ruled on *Daubert* motions directed at general experts, and refers the  
27 remand and transfer courts to the following orders:  
28

<b><i>Daubert Order</i></b>	<b>Doc. Nos.</b>
Plaintiffs' Expert Dr. Thomas Kinney	9428, 10323
Plaintiffs' Experts Drs. Scott Resnick, Robert Vogelzang, Kush Desai, and Robert Lewandowski	9432
Plaintiffs' Experts Drs. David Kessler and Suzanne Parisian	9433
Plaintiffs' Experts Drs. Thomas Kinney, Anne Christine Roberts, and Sanjeeva Kalva	9434
Plaintiffs' Expert Dr. Mark Eisenberg	9770
Plaintiffs' Expert Dr. Derek Muehrcke	9771
Plaintiffs' Expert Dr. Darren Hurst	9772
Plaintiffs' Expert Dr. Rebecca Betensky	9773
Defendants' Expert Dr. Clement Grassi	9991, 10230
Plaintiffs' Expert Dr. Robert McMeeking	10051, 16992
Plaintiffs' Expert Dr. Robert Ritchie	10052
Plaintiffs' Experts Drs. David Garcia and Michael Streiff	10072
Defendants' Expert Dr. Christopher Morris	10230, 10231, 17285

1                   **5. Motion in Limine Rulings.**

2                   **a. FDA Evidence (*Cisson* Motion).**

3           In the Booker bellwether trial, Plaintiffs sought to exclude, under Federal Rules of  
4 Evidence 402 and 403, evidence of the FDA's 510(k) clearance of Bard IVC filters and  
5 the lack of FDA enforcement action against Bard. Doc. 9529. The Court denied the  
6 motion. Docs. 9881, 10323.

7           The Court found that under Georgia law, which applied in both the Booker and  
8 Jones bellwether cases, compliance with federal regulations may not render a  
9 manufacturer's design choice immune from liability, but evidence of Bard's compliance  
10 with the 510(k) process was nonetheless relevant to the design defect and punitive  
11 damages claims. Doc. 9881 at 3-4. The Court acknowledged concerns that FDA  
12 evidence might mislead the jury or result in a mini-trial. *Id.* at 5-6 (citing *In re C.R.*  
13 *Bard, Inc., Pelvic Repair Sys. Prods. Liab. Litig. (Cisson)*, No. 2:10-CV-01224, 2013 WL  
14 3282926, at \*2 (S.D.W. Va. June 27, 2013)). But the Court concluded that such concerns  
15 could adequately be addressed by efficient management of the evidence and adherence to  
16 the Court's time limits for trial, and, if necessary, by a limiting instruction regarding the  
17 nature of the 510(k) process. *Id.* at 6-7.<sup>3</sup>

18           The Court noted that the absence of any evidence regarding the 510(k) process  
19 would run the risk of confusing the jury, as many of the relevant events in this litigation  
20 occurred in the context of the FDA's 510(k) review of the Bard filters and are best  
21 understood in that context. Doc. 9881 at 7. Nor was the Court convinced that all FDA  
22 references could adequately be removed from the evidence. *Id.*

23           The Court further concluded that it would not exclude evidence and arguments by  
24 Defendants that the FDA took no enforcement action against Bard with respect to the G2  
25 or Eclipse filters, or evidence regarding information Bard provided to the FDA in  
26

---

27                   <sup>3</sup> The Court did not find a limiting instruction necessary at the close of either the  
28 Booker or Jones trials. *See* Doc. 10694 at 9.

1 connection with the 510(k) process. Docs. 10323 at 2-3 (Booker), 11011 at 4-5 (Jones).  
2 The Court found that the evidence was relevant to the negligent design and punitive  
3 damages claims under Georgia law. *Id.* The Court determined at trial that it had no basis  
4 to conclude that the FDA's lack of enforcement was intended by the FDA as an assertion,  
5 and therefore declined to exclude the evidence as hearsay. Doc. 10568 at 87.

6 **b. FDA Warning Letter.**

7 Defendants moved to exclude evidence of the July 13, 2015 FDA warning letter  
8 issued to Bard. Doc. 9864 at 2-3. The Court granted the motion in part, excluding as  
9 irrelevant topics 1, 2, 4(a), 4(b), 5, 6, 7, and 8 of the warning letter. Docs. 10258 at 6-8  
10 (Booker), 10805 at 1 (Jones), 12736 (Hyde), 17401 at 10 (Tinlin). Topics 1 and 2  
11 concern the Recovery Cone retrieval system; Topic 4(a) concerns the filter cleaning  
12 process; and Topics 4(b), 5, 6, 7, and 8 concern the Denali Filter. The Court concluded  
13 that none of these topics was relevant to the issues in the bellwether cases involving a G2  
14 filter (Booker), an Eclipse filter (Jones), either a G2X or Eclipse filter (Hyde), and a  
15 Recovery filter (Tinlin). *Id.*

16 The Court deferred ruling on the relevance of topic 3 until trial in all bellwether  
17 cases. The Court found that topic 3, concerning Bard's complaint handling and reporting  
18 of adverse events with respect to the G2 and Eclipse filters, as well as the adequacy of  
19 Bard's evaluation of the root cause of the violations, was relevant to rebut the implication  
20 at trial that the FDA took no action with respect to Bard IVC filters. *See* Doc. 10693  
21 at 13-15; Doc. 11256. The Court concluded that the warning letter was admissible under  
22 Federal Rule of Evidence 803(8), and was not barred as hearsay. Doc. 10258 at 7. The  
23 Court further concluded that the probative value of topic 3 was not substantially  
24 outweighed by the danger of unfair prejudice to Bard under Rule 403. *Id.* The Court  
25 admitted the warning letter in redacted form during the three bellwether trials. *See*  
26 Docs. 10565, 11256, 12736. The Court noted that topic 3 included reference to the G2,  
27 the filter at issue in Booker, and reached similar conclusions in Jones and Hyde.  
28 Doc. 17401 at 11. The parties disputed the relevance of topic 3 in Tinlin because it did

1 not include reference to the Recovery, the filter at issue in Tinlin. *Id.* The Court did not  
2 decide this issue because the Tinlin case settled.

3 **c. Recovery Cephalad Migration Death Evidence.**

4 Defendants moved to exclude evidence of cephalad migration (i.e., migration of  
5 the filter toward the patient's heart) by a Recovery filter resulting in patient death. The  
6 Court denied the motion for the Booker bellwether trial, which involved a G2 filter.  
7 Docs. 10258 at 4-5, 10323 at 4. Defendants have appealed this ruling. Docs. 11934,  
8 11953.

9 The Court granted the motion for the Jones bellwether trial, which involved an  
10 Eclipse filter, and denied Plaintiff's requests for reconsideration of the ruling before and  
11 during the trial. *See* Docs. 10819, 10920, 11041, 11113, 11256, 11302; *see also*  
12 Doc. 11409 at 94-96. Plaintiff Jones has appealed those rulings. Docs. 12057, 12071.

13 The Court granted the motion for the Hyde bellwether trial, which involved either  
14 a G2X or Eclipse filter. Doc. 12533 at 6-7. Plaintiff Hyde has appealed this ruling.  
15 Docs. 13465, 13480.

16 The Court denied Defendants' motion for the Tinlin bellwether trial, which  
17 involved a Recovery filter. Doc. 17401 at 7-10. The Tinlin case settled before trial.

18 The Court concluded for purposes of the Booker bellwether trial that evidence of  
19 cephalad migrations by a Recovery filter resulting in patient death was necessary for the  
20 jury to understand the issues that prompted creation and design of the next-generation G2  
21 filter, and thus was relevant to Plaintiff's design defect claims. Doc. 10323 at 4. In  
22 addition, because the Recovery filter was the predicate device for the G2 filter in  
23 Defendants' 510(k) submission to the FDA, and Defendants asserted to the FDA that the  
24 G2 was as safe and effective as the Recovery, the Court concluded that the safety and  
25 effectiveness of the Recovery filter was at issue. *Id.* The Court was concerned, however,  
26 that too heavy an emphasis on deaths caused by cephalad migration of the Recovery  
27 filter – a kind of migration which did not occur in the G2 filter generally or the Booker  
28 case specifically – would result in unfair prejudice to Defendants that substantially

1 outweighed the probative value of the evidence. *Id.* Defendants did not object during  
2 trial that Plaintiffs were over-emphasizing the death evidence.

3 The Court initially concluded for purposes of the Jones bellwether trial, which  
4 involved an Eclipse filter, that evidence of cephalad migration deaths by the Recovery  
5 filter was inadmissible because it was only marginally relevant to Plaintiff's claims and  
6 its marginal relevancy was substantially outweighed by the risk of unfair prejudice. *See*  
7 Docs. 10819, 10920, 11041, 11113, 11256, 11302. This is because cephalad migration  
8 did not continue in any significant degree beyond the Recovery filter; cephalad migration  
9 deaths all occurred before the Recovery was taken off the market in late 2005; Ms. Jones  
10 did not receive her Eclipse filter until 2010; the Recovery-related deaths said nothing  
11 about three of Ms. Jones' four claims (strict liability design defect and the failure to warn  
12 claims); and instances of cephalad migration deaths were not substantially similar to  
13 complications experienced by Ms. Jones and therefore did not meet the Georgia standard  
14 for evidence on punitive damages. Docs. 10819, 11041.

15 The Court also found that deaths caused by a non-predicate device (the Recovery  
16 was not the predicate device for the Eclipse in Defendants' 510(k) submission), and by a  
17 form of migration that was eliminated years earlier, were of sufficiently limited probative  
18 value that their relevancy was substantially outweighed by the danger of unfair prejudice  
19 because the death evidence may prompt a jury decision based on emotion. *Id.* The Court  
20 further concluded that Plaintiff Jones would not be seriously hampered in her ability to  
21 prove Recovery filter complications, testing, and design when references to cephalad  
22 migration deaths are removed. Doc. 11041. As a result, the Court held that such  
23 references should be redacted from evidence presented during the Jones trial.

24 The Court balanced this concern with the competing concern that it would be  
25 unfair for Defendants to present statistics about the Recovery filter and not allow  
26 Plaintiffs to present competing evidence that included Recovery deaths. *See, e.g.,*  
27 Doc. 11391 at 12. Based on this concern, Plaintiffs argued at various points during the  
28 trial that Defendants had opened the door to presenting evidence about Recovery

1 cephalad migration deaths. The Court repeatedly made fact-specific determinations on  
2 this point, holding that even though Defendants presented some evidence that made the  
3 Recovery evidence more relevant, the danger of unfair prejudice continued to  
4 substantially outweigh the probative value of the cephalad migration death evidence. *See*  
5 Docs. 11113, 11302; *see also* Doc. 11409 at 94-96.

6 The Court concluded for purposes of the Hyde bellwether trial, which involved  
7 either a G2X or Eclipse filter, that evidence of Recovery filter cephalad migration deaths  
8 should be excluded under Rule 403 for the reasons identified in the Jones bellwether trial.  
9 Doc. 12533 at 6-7. The Court concluded that this evidence had marginal relevance to  
10 Plaintiff's claims because Ms. Hyde received either a G2X or Eclipse filter, two or three  
11 generations after the Recovery filter; Ms. Hyde did not receive her filter until 2011, more  
12 than five years after cephalad migration deaths stopped when the Recovery was taken off  
13 the market; the deaths did not show that G2X or Eclipse filters – which did not cause  
14 cephalad migration deaths – had design defects when they left Defendants' control; nor  
15 did the cephalad migration deaths, which were eliminated by design changes in the G2,  
16 shed light on Defendants' state of mind when designing and marketing the G2X and  
17 Eclipse filters. *Id.* at 7.

18 The Court concluded for purposes of the Tinlin bellwether trial, which involved a  
19 Recovery filter, that Recovery deaths and Defendants' knowledge of those deaths were  
20 relevant to Plaintiffs' design defect claim under Wisconsin law because they went  
21 directly to the Recovery's foreseeable risks of harm and whether it was unreasonably  
22 dangerous. Doc. 17401 at 7-8. The Court also concluded that the Recovery death  
23 evidence was relevant to Plaintiffs' failure to warn and concealment claims because it  
24 was probative on the causation issue – that is, whether her treating physician would have  
25 selected a different filter for Ms. Tinlin had he been warned about the Recovery's true  
26 risks, as Plaintiffs describe them. *Id.* at 8. In addition, because this evidence would be  
27 used to impeach expert testimony from Defendants that the Recovery filter was safe and  
28 effective, the Court concluded that substantial similarity was not required. *Id.* at 8-9.

1 The Court further concluded that the death evidence was relevant to Bard's state of mind  
 2 and to show the reprehensibility of its conduct for purposes of punitive damages. *Id.*  
 3 at 9-10. The Court reached a different conclusion in the Jones and Hyde cases because  
 4 cephalad migration deaths stopped when the Recovery was taken off the market in 2005,  
 5 and the deaths shed little light on Defendants' state of mind when marketing different,  
 6 improved filters years later. *Id.* at 9 n.4. As noted, the Tinlin case settled before trial.

7 **d. SNF Evidence.**

8 Plaintiffs sought to exclude evidence of complications associated with the SNF,  
 9 claiming that they were barred from conducting relevant discovery into the design and  
 10 testing of the SNF under CMO 10. Doc. 10487; *see* Doc. 1319. The Court denied  
 11 Plaintiffs' request. Doc. 10489. The Court did not agree that Plaintiffs were foreclosed  
 12 from obtaining relevant evidence for rebuttal. The Court foreclosed this discovery  
 13 because Plaintiffs did not contend that the SNF was defective. *Id.* at 2. Plaintiffs also  
 14 had rebuttal evidence showing that reported failure rates for SNF were lower than  
 15 Recovery and G2 failure rates. *Id.* The Court ultimately concluded it would not preclude  
 16 Defendants from presenting its SNF evidence on the basis of a discovery ruling and  
 17 permitted Plaintiffs to make appropriate evidentiary objections at trial. *Id.* at 3.

18 **e. Use of Testimony of Withdrawn Experts.**

19 Defendants sought to preclude Plaintiffs' use at trial of the depositions of three  
 20 defense experts – Drs. Moritz, Rogers, and Stein – who originally were retained by Bard  
 21 but were later withdrawn in some or all cases. Doc. 10255 at 2. The Court denied the  
 22 request in part. Doc. 10382. The Court found that Defendants failed to show that the  
 23 depositions of these experts were inadmissible on hearsay grounds, but agreed that it  
 24 would be unfairly prejudicial under Rule 403 to disclose to the jury that the experts  
 25 originally were retained by Bard. *Id.* at 2-3. The Court therefore concluded that  
 26 Plaintiffs could use portions of the experts' depositions that support Plaintiffs' claims, but  
 27 could not disclose to the jury that the experts originally were retained by Bard. *Id.* at 3.  
 28 The Court was concerned about the presentation of cumulative evidence, and therefore

1 required Plaintiffs to show that no other expert of similar qualifications was available or  
 2 that the unavailable expert had some unique testimony to contribute, before the  
 3 deposition of any withdrawn expert could be used at trial. *Id.* at 3-4.

4 **f. Other Motion in Limine Rulings.**

5 Other motion in limine (“MIL”) rulings may be useful to the receiving courts. *See*  
 6 Docs. 10075, 10235, 10258, 10947. The courts are referred to the following motions and  
 7 orders to assist in preparing for trial:<sup>4</sup>

- 8
- 9 • **Parties’ Joint Stipulation on MILs in Booker:** The Court, on stipulation of  
 10 the parties, excluded evidence concerning several case-specific issues in the  
 11 Booker bellwether trial, as well as a few general issues, including: Bard’s 1994  
 12 criminal conviction; other lawsuits or claims against Bard; advertising by  
 Plaintiff’s counsel; Plaintiff’s counsel specializing in personal injury or  
 products liability litigation; contingency fee agreements; and advertising by  
 any counsel nationally for IVC filter cases. Doc. 10235.
- 13 • **Defendants’ MIL 1 in Booker:** The Court permitted evidence and testimony  
 14 concerning Recovery complications. Doc. 10258 at 1-5; *see* Doc. 10819  
 15 (Jones). As noted above, the Court permitted evidence and testimony  
 16 concerning Recovery filter cephalad migration deaths in the Booker bellwether  
 17 trial involving a G2 filter (Doc. 10323 at 4), but excluded such evidence in the  
 18 trials involving a G2X or Eclipse filter (Docs. 10819, 10920, 11041).
- 19 • **Defendants’ MIL 2 in Booker:** The Court permitted evidence and testimony  
 20 relating to the development of the Recovery filter. Doc. 10258 at 5-6; *see*  
 21 Doc. 10819 at 2-3 (Jones).
- 22 • **Defendants’ MIL 4 in Booker:** The Court excluded evidence and testimony  
 23 concerning a photograph of Bard employee Michael Randall making an  
 24 offensive gesture. Doc. 10075 at 1-2.
- 25 • **Defendants’ MIL 5 in Booker:** The Court permitted Plaintiff’s expert  
 26 Dr. Thomas Kinney to be called as a fact witness, but prohibited him from  
 27 testifying regarding his prior work for Bard as an expert witness in two prior  
 28 IVC filter cases or as a paid consultant to Bard. Docs. 10075 at 2-3, 10323  
 at 4.

---

<sup>4</sup> The Court also ruled on the parties’ MILs concerning several case-specific issues. *See* Docs. 10075 (Plaintiff’s MIL 12 in Booker), 10258 (Plaintiff’s MILs 6 and 13 in Booker), 10947 (Defendants’ MIL 1 and Plaintiff’s MILs 1-4 and 7 in Jones), 12533 (Plaintiff’s MIL 3 in Hyde), 17285 (Plaintiff’s MIL 1 in Tinlin), 17401 (Plaintiff’s MILs 2, 3, and 6 in Tinlin).

- 1 • **Plaintiff's MIL 2 in Booker:** The Court reserved ruling until trial on evidence  
2 and testimony regarding the nature of Bard's business, including the nature,  
3 quality, and usefulness of its products, the conscientiousness of its employees,  
4 and references to its mission statement. Doc. 10075 at 3-4.
- 5 • **Plaintiff's MIL 3 in Booker:** The Court permitted evidence and testimony  
6 concerning the benefits of IVC filters, including testimony describing Bard  
7 filters as "lifesaving" devices. Doc. 10258 at 8.
- 8 • **Plaintiff's MIL 4 in Booker:** The Court permitted evidence and testimony  
9 that IVC filters, including Bard's filters, are within the standard of care for the  
10 medical treatment of pulmonary embolism. Doc. 10258 at 8-9. Defendants  
11 agreed to not characterize IVC filters as the "gold standard" for the treatment  
12 of pulmonary embolisms. *Id.* at 8.
- 13 • **Plaintiff's MIL 5 in Booker:** The Court denied as moot the motion to exclude  
14 evidence and argument relating to failure rates, complication rates,  
15 percentages, or comparative analysis of any injuries that were not produced to  
16 Plaintiffs during discovery, as all such information was produced. Doc. 10075  
17 at 4.
- 18 • **Plaintiff's MIL 7 in Booker:** The Court excluded evidence and argument  
19 relating to prior judicial opinions about Plaintiffs' experts, including the  
20 number of times their testimony has been precluded in other cases. *Id.*
- 21 • **Plaintiff's MIL 8 in Booker:** The Court excluded evidence and argument that  
22 a verdict against Defendants will have an adverse impact on the medical  
23 community, future medical device research or costs, and the availability of  
24 medical care. *Id.* at 4-5.
- 25 • **Plaintiff's MIL 9 in Booker:** The Court deferred ruling on the relevance of  
26 statements or lack of statements from medical societies, including the Society  
27 of Interventional Radiologists ("SIR"), until trial. Doc. 10258 at 14-18. The  
28 Court ultimately admitted this evidence in both the Booker and Jones  
bellwether trials.
- **Plaintiff's MIL 10 in Booker:** The Court excluded evidence and testimony  
that Bard needed FDA consent to add warnings to its labels, send warning  
letters to physicians and patients, or recall its filters. *Id.* at 18-19. The Court  
permitted evidence and argument explaining the reasons why Bard filters were  
not recalled, FDA's potential involvement in any recall effort, and the fact that  
warnings about failure rates and increased risks could not be based on MDR  
and MAUDE data alone. *Id.*
- **Plaintiff's MIL 11 in Booker:** The Court permitted evidence and argument  
relating to the informed consent form signed by Plaintiff prior to insertion of  
the IVC filter, even though the form is not specific to IVC filters or Bard  
filters. Doc. 10075 at 5-6.
- **Plaintiff's MIL 14 in Booker:** The Court reserved ruling until trial on  
evidence and argument relating to background information and personal traits  
of Bard employees and witnesses. *Id.* at 7.

- 1 • **Plaintiff's MIL 6 in Jones:** The Court permitted evidence and testimony  
2 concerning whether a party's expert had been retained by the same attorneys in  
3 other litigation. Doc. 10947 at 8-9.
- 4 • **Plaintiff's MIL 5 in Jones:** The Court excluded evidence and testimony that  
5 Bard employees or their relatives have received Bard IVC filter implants. *Id.*  
6 at 9-10.
- 7 • **Defendants' MIL 2 in Jones:** The Court excluded evidence and testimony of  
8 other lawsuits against Bard. *Id.* at 11.
- 9 • **Plaintiff's MILs 4 and 5 in Hyde:** The Court permitted evidence and  
10 testimony concerning Bard's Instructions for Use ("IFU") and SIR Guidelines.  
11 Doc. 12507.
- 12 • **Plaintiff's MIL 2 in Hyde:** The Court permitted evidence and testimony  
13 concerning "The Surgeon General's Call to Action to Prevent Deep Vein  
14 Thrombosis and Pulmonary Embolism." Doc. 12533 at 4-6.
- 15 • **Defendants' MIL 3 in Hyde:** The Court permitted evidence and testimony  
16 that Bard's SNF is a reasonable alternative design. *Id.* at 7.
- 17 • **Defendants' MIL 4 in Hyde:** The Court excluded testimony from Dr.  
18 Muehrcke about his personal feelings of betrayal and his moral and ethical  
19 issues with Bard's conduct. *Id.* at 7-8.
- 20 • **Defendants' MIL 6 in Hyde:** The Court permitted evidence and testimony  
21 regarding informed consent. *Id.* at 8-9.
- 22 • **Plaintiff's MIL 4 in Tinlin:** The Court reserved ruling until trial on evidence  
23 and argument relating to a chart created by Defendants from their internal  
24 TrackWise database regarding reporting rates of IVC filter complications.  
25 Doc. 17401 at 5.
- 26 • **Plaintiff's MIL 5 in Tinlin:** The Court permitted evidence and testimony  
27 concerning a chart comparing the sales of the permanent SNF with those of  
28 retrievable filters between 2002 and 2016. *Id.* at 5-6.
- **Defendants' MIL 3 in Tinlin:** The Court permitted evidence and testimony  
concerning the Recovery Filter Crisis Communications Plan that Bard had  
prepared in 2004 to help manage damaging media coverage about a Recovery  
migration death. *Id.* at 11-12.
- **Defendants' MIL 4 in Tinlin:** The Court excluded evidence and testimony  
concerning Dr. Muehrcke's untimely disclosed opinion that one of his patients  
died from cardiac tamponade caused by a fractured strut that had embolized to  
her heart. *Id.* at 12-13.

**6. Deposition Designation Rulings.**

The Court has ruled on numerous objections to deposition designations for trial and refers the transferor courts to the following orders:<sup>5</sup>

<b>Deponent</b>	<b>Depo. Date</b>	<b>Doc. No(s).</b>
Bill Altonaga	10/22/2013	10497, 10922
Christine Brauer	05/23/2014 08/02/2017	10922, 10922

Carol Vierling	05/11/2016	10486, 11073
Mark Wilson	01/31/2017	10922
Natalie Wong	10/18/2016	10403

## **7. Subject Matter Jurisdiction Ruling.**

The parties identified cases in the MDL for which federal subject matter jurisdiction does not exist. Doc. 20210. No federal question jurisdiction exists under 28 U.S.C. § 1331 because the master complaint asserts no federal claim and the state law claims alleged in the complaint do not depend on the resolution of a federal law question. *See* Doc. 364 ¶¶ 166-349. For purposes of diversity jurisdiction under 28 U.S.C. § 1332, Defendant C. R. Bard, Inc. is a citizen of New Jersey and Defendant Bard Peripheral

1 Vascular, Inc. is a citizen of Arizona. *See id.* ¶¶ 11-12. Thus, complete diversity  
 2 between the parties does not exist in any case where Plaintiff is a resident of either  
 3 Arizona or New Jersey. *See* Doc. 20210-1.

4 Plaintiffs in most of the cases without subject matter jurisdiction agreed to a  
 5 dismissal without prejudice. *See id.* Plaintiffs in other cases opposed dismissal, but  
 6 provided no reason for why the cases should not be dismissed. *See id.* The Court  
 7 dismissed without prejudice 37 cases for lack of subject matter jurisdiction. *See* Doc.  
 8 20667. Some of these cases may be refiled in state court. *See* Doc. 20210-1.

## 9 **I. Further Proceedings in Remanded or Transferred Cases.**

### 10 **1. General Discovery.**

11 Because all general fact and expert discovery has been completed in this MDL, the  
 12 courts receiving these cases need not be concerned with facilitating general expert,  
 13 corporate, and third-party discovery. This observation is not meant to restrict the power  
 14 of receiving courts for good cause or in the interest of justice to address issues that may  
 15 be unique and relevant a in remanded or transferred case.

### 16 **2. Case-Specific Discovery and Trial Preparation.**

17 According to the parties, the status of the remaining discovery and other pretrial  
 18 issues for the cases being remanded or transferred, and the estimated time needed to  
 19 resolve such issues and make the cases ready for trial, will be determined on remand or  
 20 transfer. Final trial preparation in the bellwether trials was governed by certain Court  
 21 orders. *See* Docs. 8871, 10323, 10587, 11011, 11320, 11321, 11659, 11871, 12061,  
 22 12853, 12971.

## 23 **J. Documents to Be Sent to Receiving Courts.**

24 If the Panel agrees with the Court's suggestion of remand of the case listed on  
 25 Schedule A and issues a final remand order ("FRO"), the Clerk of the Court for this  
 26 District will issue a letter to the transferor court, via email, setting out the process for  
 27 transferring the case. The letter and certified copy of the FRO will be sent to the  
 28 transferor court's email address.

The parties have submitted a stipulated designation of record for remanded cases. Doc. 19444-1; *see* J.P.M.L Rule 10.4(a). Upon receipt of the FRO, the Clerk of this District shall transmit to the transferor court the following: (1) a copy of the individual docket sheet for the remanded action, (2) a copy of the master docket sheet in this MDL, (3) the entire file for the remanded action, as originally received from the transferor district, and (4) the record on remand designated by the parties. *See* Doc. 19444-1; J.P.M.L Rule 10.4(b).

The Court has concluded that the cases listed on Schedule B should be transferred to appropriate districts pursuant to 28 U.S.C. § 1404(a). Upon receipt of this transfer order, the Clerk for this District shall follow the same procedures prescribed above for each of the individual cases listed on Schedule B.

If a party believes that the docket sheet for a particular case being remanded or transferred is not correct, a party to that case may, with notice to all other parties in the case, file with the receiving court a designation amending the record. Upon receiving such designation, the receiving court may make any needed changes to the docket. If the docket is revised to include additional documents, the parties should provide those documents to the receiving court.

## IV. Conclusion.

Pursuant to J.P.M.L. Rule 10.1(b)(i), the Court suggests that the Panel remand the case listed on Schedule A to the transferor district for further proceedings. The Clerk shall forward a certified copy of this order to the Panel.

Pursuant to 28 U.S.C. § 1404(a), the Clerk of this District is directed to transfer the cases listed on Schedule B to appropriate districts for further proceedings.

The Clerk of this District is directed to unconsolidate from the MDL the two cases listed on Schedule C. These cases will remain in the District of Arizona.

**IT IS SO ORDERED.**

Dated this 17th day of October, 2019.

David G. Campbell

David G. Campbell  
Senior United States District Judge

<b>Trial Ex. No.</b>	<b>Notes</b>	<b>Description</b>
1222	REDACTED	Ganser Deposition, 10/11/2016 - Exhibit 534 - PowerPoint Presentation for a meeting to analyze EVEREST and MAUDE data and provide justifications for proposed changes to G2 filter
1295		Graves Deposition, 02/27/2014 - Exhibit 10 - 3/23/2006 E-mail exchange b/w Mickey Graves and Charlie Simpson, FEA on G2, regarding Historical FEA analysis
1335		Hudnall Deposition, 11/01/2013, Exhibit 21 - Brochure - Recovery Cone Removal System
1336		Hudnall Deposition, 11/01/2013, Exhibit 22 - Recovery G2 Filter System brochure
1337		Hudnall Deposition, 11/01/2013, Exhibit 23 - G2 Brochure (permanent) - Patient Questions & Answers and Bard's website page about G2 Filter System, Indicated for removal, 6/10/2010
1339	REDACTED	Hudnall Deposition, 11/01/2013, Exhibit 29 - 7/6/2004 E-mail exchange b/w Hudnall and Bob Cortelezzi Re. "Maude Website Discussion"
1369		Hudson Deposition, 01/17/2014 - Exhibit 16 - 3/24/2004 E-mail from Alex Tessmer to Charlie Benware and Ed Fitzpatrick Re. "Starguide Filter Migration Test Results"
1370		Hudson Deposition, 01/17/2014 - Exhibit 18 - 12/11/2003 E-mail exchange b/w Brian Hudson and Janet Hudnall, others CC'ed, Re. "Special Design Review for Recovery - Meeting Minutes".
1383		Hudson Deposition, 01/17/2014, Exhibit 13 - BPV Engineering Test Report - Characterization of Recovery Filter Migration Resistance in Comparison to Competitive Product - Phase 1, ETR-04-03-02, Rev 0.
1500		Kessler Report - August 7, 2010, John Van Vleet emailed BPV President Jim Beasley, Marketing Director Bill Little, and V.P. of QA Gin Schulz
1517		EVEREST Track wise and MAUDE PowerPoint, BPV-17-01-00188507
1568		Kessler Report - September 30, 2010 memo from Brett Baird to Eclipse DRT, with the subject line "Eclipse Post-Market Design Review/Marketing Summary," stated: "The objective of the Eclipse Filter project was to enhance the G2 X filter surface finish..."
1578		ETR-06-28-29, revision 0, project #8049, Caudal Migration Test Method Development and G2 Filter Resistance Test Report, 11/27/06, BPVE-01-00789532

*In re Bard IVC Filters Products Liability Litigation*, No. MDL 15-02641-PHX-DGC**SUGGESTION OF REMAND AND TRANSFER ORDER (SECOND)****Exhibit 2 – Admitted Exhibit List from Bellwether Trials and Documents No Longer Subject to Protective Order**

<b>Trial Ex. No.</b>	<b>Notes</b>	<b>Description</b>
1580	REDACTED	Kessler Report -July 12, 2004 email from Bard's VP of Regulatory Sciences Chris Ganser, to Tim Ring and John Weiland, attached "an executive summary of Recovery Filter adverse events (migration and fracture"
1594	REDACTED	Lehmann Deposition, 04/02/2013 - Exhibit 08 - 2/16/2005 E-mail from Charlie Simpson to Hudnall Re. "American Venous Forum - Mary Protocor presented an evaluation of filter related findings from the Maude database"
1612		Lehmann Deposition, 08/07/2014, Exhibit 08 - Updated Health Hazard Evaluation Memo from Ciavarella to Uelmen, re: "Limb Fractures of Recovery Filter", dated 7/9/2004
1613		Lehmann Deposition, 08/07/2014, Exhibit 09 - 6/10/2004 E-mail exchange b/w Ciavarella and Cindi Walcott Re. "Recovery Filter/Detachments"
1616		Little Deposition, 06/27/2016 - Exhibit 2003 - "Patient Questions & Answers" Brochure for the G2 Filter System
1617		Little Deposition, 06/27/2016 - Exhibit 2004 - Chart entitled "EVEREST/Cook Celest Clinical Comparison"
1618		Little Deposition, 06/27/2016 - Exhibit 2005 - 4/27/2010 BPV Memo from Filter Marketing to Bill Little Re. "Filter naming", detailing the name rational for the Eclipse and Denali
1621		Little Deposition, 06/27/2016 - Exhibit 2009 - "Fractures of a Nitinol IVC Filter" presentation by Dr. W. Jay Nicholson on www.CRTOonline.org, in which he reviewed a single center experience on fractures with the Bard Recovery and G2 filters
1643		McDermott Deposition, 02/05/2014 - Exhibit 02 - Bard's Product Performance Specification Report on the Recovery Filter and Femoral Delivery System, PPS No. PPS070016 Rev. 0
1680	REDACTED	McDonald Deposition, 07/29/2016 - Exhibit 21 - 7/13/2015 Warning Letter from the FDA regarding the 11/25/2014 Inspection of the C.R. Bard facility in NY and the 11/18/2014-1/5/2015 Inspection of the BPV facility in AZ
1740		Modra Deposition, 06/06/2014 - Exhibit 5 - 1/18/2010 E-mail from Bret Baird (Marketing Manager of IVC Filters) to Sales Team list serve (TPE-PV Sales-DG) Re. "Important: Eclipse Vena Cava Filter Launch Details"
1742		Modra Deposition, 06/06/2014 - Exhibit 7 - Product Opportunity Appraisal for the G2 Platinum Concept, POA-8088 Rev. 1.0, Revised on 5/5/2009
1763		Modra, 01/26/2017, Exhibit 771A - Chart entitled "Design Failure Mode and Effects Analysis" on the Simon Nitinol Filter - SNF/SL Filter Sets (DFMEA070042 Rev. 1)

*In re Bard IVC Filters Products Liability Litigation*, No. MDL 15-02641-PHX-DGC**SUGGESTION OF REMAND AND TRANSFER ORDER (SECOND)****Exhibit 2 – Admitted Exhibit List from Bellwether Trials and Documents No Longer Subject to Protective Order**

<b>Trial Ex. No.</b>	<b>Notes</b>	<b>Description</b>
1787		Orms Deposition, 08/16/2016 - Exhibit 13 - 11/9/2010 E-mail Thread from Chris Smith Re. "Northside(S) Filter Business"
1788		Orms Deposition, 08/16/2016 - Exhibit 14 - 10/2/2010 E-mail Thread from Jeffrey Pellicio Re. "Meridian Commercialization Plan"
1817		Raji-Kubba Deposition, 07/18/2016 - Exhibit 301 - 5/14/2009 E-mail from Bill Edwards to Raji-Kubba and Mike Randall Re. "Tomorrow"
1821		Raji-Kubba Deposition, 07/18/2016 - Exhibit 305 - 11/12/2009 E-mail from Bret Baird to Bill Little, John Van Vleet, and Gin Schulz
1822		Raji-Kubba Deposition, 07/18/2016 - Exhibit 307 - 1/21/2010 Bard Memo from Jeffrey Pellicio to "Reviewers"
1823		Raji-Kubba Deposition, 07/18/2016 - Exhibit 308 - 1/4/2010 E-mail from Gin Schulz to Beasley, Raji-Kubba, Van Vleet, Doherty, and Little Re. "Potential Actions"
1825		Raji-Kubba Deposition, 07/18/2016 - Exhibit 310 - 9/1/2009 E-mail from Mike Randall Re. "0809 Filters Monthly Report.doc"
1861	Only admitted Pgs. 38 & 70	Randall, 01/18/2017, Exhibit 634 - Binder labeled "Meridian Design History File DHF, Vol. II"
1912		Romney Deposition, 09/07/2016 - Exhibit 2039 3/16/2006 E-mail from Jason Greer to Janet Hudnall
1926		Romney, 01/18/2017, Exhibit 2061 - 8/6/2014 E-mail from Schyler Smith, Field Manager for BPV in Washington-Idaho-Montana, to Kim Romney, Subject redacted, relaying that a redacted doctor had placed a Meridian in the past year and discovered at retrieval that an arm fractured, which imaging confirmed had occurred within 1 week of placement, and was now wondering if he should try to remove the filter or leave it in. Van Vleet forwarded to Treratola in a high importance e-mail on 8/7, requesting that he contact the doctor on Bard's behalf.
1940	REDACTED	Schulz Deposition, 01/30/2014 - Exhibit 11 - Chart of Adverse Events and Deaths for all competitors from Prior Evaluation through Q3 2005 and from
1941	REDACTED	Schulz Deposition, 01/30/2014 - Exhibit 12 - 11/30/2005 E-mail exchange b/w Gin Schulz and Kellee Jones re Gin, G2 v. Maude and attachments, Spread Sheet - Filter Sales (IMS Q1 '00 to Q4 '04, + Trend Q1 - Q3 '05)

*In re Bard IVC Filters Products Liability Litigation*, No. MDL 15-02641-PHX-DGC**SUGGESTION OF REMAND AND TRANSFER ORDER (SECOND)****Exhibit 2 – Admitted Exhibit List from Bellwether Trials and Documents No Longer Subject to Protective Order**

<b>Trial Ex. No.</b>	<b>Notes</b>	<b>Description</b>
1944		Schulz Deposition, 01/30/2014 - Exhibit 15 - 5/19/2006 E-mail from Natalie Wong to Gin Schulz and Candi Long, attaching the PowerPoint Presentation on "Recovery (Gen 1) Fracture Slides" (included in exhibit) and RNF Fracture Report (not included), updated to be current as of 5/18/2006 for the Management Review
1945		Schulz Exh. 16, BPVEFILTER-01-00008798 - 851, 10/1/2006 E-mail from Natalie Wong to Several Re. "Fracture Docs"
1946		Schulz Deposition, 01/30/2014 - Exhibit 17 - 2/2/2006 E-mail from Gin Schulz to Several Re. "Minutes"
1947		Schulz Deposition, 01/30/2014 - Exhibit 19 - 5/10/2006 E-mail from Natalie Wong Re. "FDA Proposed Response"
1948		Schulz Deposition, 01/30/2014 - Exhibit 2 - 1/31/2006 E-mail from Gin Schulz to Mickey Graves and Natalie Wong Re. "Caudal"
1949		Schulz Deposition, 01/30/2014 - Exhibit 21 - 6/28/2011 Email Chain from Brian Hudson to Kevin Bovee and Chad Modra Re Talking Points Including attachment
1950		Schulz Deposition, 01/30/2014 - Exhibit 4 - Meeting Summary of the IVC Filter Focus Group meeting held on 6/1/2006 in Chicago, IL at Hilton O'Hare
1951		Schulz Deposition, 01/30/2014 - Exhibit 5 - 1/31/2005 Memo from Peter Palermo to Kerry Chunko Re. "Quality Plan 2005"
2045		Sullivan Deposition, 09/16/2016 - Exhibit 431 - Marketing Brochure - G2 Filter System for Permanent Placement
2048	REDACTED	Sullivan Deposition, 09/16/2016 - Exhibit 437 - Document entitled "Failure Investigations/R002 History Review"
2049		Sullivan Deposition, 09/16/2016 - Exhibit 439 - 11/17/2004 Updated Health Hazard Evaluation Memo from David Ciavarella, M.D. to Doug Uelmen, Re: "Limb Fractures of Recovery Filter"
2052		Wong Exh. 546, BPVE-01-01239757 - 775, Draft of PowerPoint Presentation entitled "G2 and G2X Fracture Analysis", dated 11/30/2008
2057	REDACTED	Sullivan, 11/03/2016, Exhibit 442 - Recovery Filter Migration Remedial Action Plan SPA-04-12-01 dated 1/4/2005, including the Lehmann Report and Dr. Ciavarella's 12/17/2004 HHE titled "Recovery Filter - Consultant's report"
2059		Tessmer Deposition, 06/12/2013 - Exhibit 02 - Project Status Report Form for the Recovery Filter, Project No. 7081, initiated 7/1/2002 with the goal to "Investigate Migration"; FM0700160, Rev. 1

*In re Bard IVC Filters Products Liability Litigation*, No. MDL 15-02641-PHX-DGC**SUGGESTION OF REMAND AND TRANSFER ORDER (SECOND)****Exhibit 2 – Admitted Exhibit List from Bellwether Trials and Documents No Longer Subject to Protective Order**

<b>Trial Ex. No.</b>	<b>Notes</b>	<b>Description</b>
2061		Tessmer 5, BPVE-01-00000230, 2/4/2004 E-mail from Alex Tessmer to Several Re. "Updated: Filter Migration Flow Loop Test Fixture"
2062		Tessmer Deposition, 06/12/2013 - Exhibit 07 - 1/14/2004 Memo from Rob Carr to File Re. "Design Review Meeting Minutes Response"
2063		Tessmer Deposition, 06/12/2013 - Exhibit 08 - 2/25/2004 E-mail from Alex Tessmer to Robert Carr and Brian Hudson Re. "Filter Migration Test Results"
2065		Tessmer Deposition, 06/12/2013 - Exhibit 11 - BPV Engineering Test Report - Characterization of Recovery Filter Migration Resistance When Legs are Crossed or Hooks Removed - Phase 2, ETR-04-03-10, Rev 0
2068		Tessmer Deposition, 06/12/2013 - Exhibit 17 - 6/8/2004 "High" Importance E-mail from Alex Tessmer to Carr, Chanduszko, and Hudson Re. "Filter Improvement DOE"
2069		Tessmer Deposition, 06/12/2013 - Exhibit 19 - 8/26/2004 E-mail from Alex Tessmer to Robert Carr and Avijit Mukherjee Re. "Corporate Presentations"
2090		Tillman, 08/04/2017, Exhibit 1064 - NMT PowerPoint, Cprdos, 06/14/2000
2105		Trerotola, 01/20/2017, Exhibit 692 - 4/30/2015 E-mail from Dr. Trerotola to John Van Vleet, forwarding an article from Forbes Magazine about ALN filters entitled "Effect of a Retrievable IVC Filter Plus Anticoagulation vs. Anticoagulation Alone on Risk of Recurrent PE: A Randomized Clinic Trial". Per Trerotola, "not good for ALN...and maybe not good for the industry". The article was discussed through 5/4, as they were meeting that day to review articles before meeting with JVV.
2149		Vierling Deposition, 05/11/2016 - Exhibit 231 - 12/13/2001 E-mail from Carol Vierling to kaufmajo@ohsu.edu, Paul Stagg, and Connie Murray Re. "RF Protocol"
2153		Vierling Deposition, 05/11/2016 - Exhibit 236 - 6/3/2002 Memo from Lynn Buchanan-Kopp to Project 7081 Design History File Recovery Filter Project Team Re. "Project Phase Clarification", defining the 3 phases of the Recovery filter project (I. Permanent; II. Intraprocedural Removal; and III. Long-Term Removable), as decided at the project team meeting on 5/20/2002
2217		Williamson Deposition, 09/07/2016 - Exhibit 105 - Cover page entitled "Attachment 1.14", followed by the 1/23/2015 Memo from Ludwig to Chad Modra Re. "IVC Filters Retrospective Review", detailing the 2-year review

*In re Bard IVC Filters Products Liability Litigation*, No. MDL 15-02641-PHX-DGC**SUGGESTION OF REMAND AND TRANSFER ORDER (SECOND)****Exhibit 2 – Admitted Exhibit List from Bellwether Trials and Documents No Longer Subject to Protective Order**

<b>Trial Ex. No.</b>	<b>Notes</b>	<b>Description</b>
		of 939 filter complaints from 1/2013 to 1/2015, with a chart detailing whether the MDR classification changed for any complaints
2238		Wilson, 01/31/2017, Exhibit 801 - E-mail string, Subject: Meridian Commercialization Plan
2243		Wong Deposition, 10/18/2016 - Exhibit 537 - 4/23/2004 E-mail from John Lehmann to Carr and Uelmen Re. "Draft data set for statistician"
2244	REDACTED	Wong Deposition, 10/18/2016 - Exhibit 538 - 12/17/2004 Health Hazard Evaluation from David Ciavarella to Doug Uelmen Re. "Recovery Filter - Consultant's Report", detailing the 76 reports of the Recovery filter, with 32 serious injury and 10 deaths of the 20,827 units sold during the reporting period
2245		Wong Exh. 540, Recovery Gen 1, Fracture and Migration Complaint Update, 6-20-2006
2245		Wong Deposition, 10/18/2016 - Exhibit 540 - Confidential PowerPoint Presentation entitled "Recovery (Gen 1) - Fracture and Migration Complaint Update," dated 6/20/2006
2246		Wong Exh. 541, BPVE-01-01512188, Email from Natalie Wong to Gin Schulz Re RNF Fracture Report 8-1-06, 8-4-2006
2247		Wong Deposition, 10/18/2016 - Exhibit 542 - 12/2/2009 E-mail exchange b/w Sandy Kerns and Natalie Wong Re. "Filter Fractures"
2248		Wong Deposition, 10/18/2016 - Exhibit 543 - PAT PowerPoint Presentation entitled "G2 Caudal Migration Update," dated 3/2/2006, which Wong circulated via e-mail on 3/2/2006 to several for the presentation that afternoon
2249		Wong Deposition, 10/18/2016 - Exhibit 544 - 5/18/2006 Natalie Wong meeting documents, email re "Caudal Investigation" with attachments of G2 Caudal Report 05.18.06 and Caudal Pre-PAT minutes
2250		Wong Deposition, 10/18/2016 - Exhibit 545 - BPV's Failure Investigation Report on the G2 Filter - Caudal Migration, FIR-06-01-01, unsigned and forwarded by Wong to Gin Schulz for her review, in anticipation of the Friday deadline
2251		Wong Deposition, 10/18/2016 - Exhibit 547 - 4/10/2006 High Importance E-mail from Cindi Walcott to Allen, Schulz, and McDermott Re. "FW: FDA Request for Information"
2252		Wong Deposition, 10/18/2016 - Exhibit 548 - 9/25/2007 E-mail from John Lehmann to John Van Vleet and John Reviere Re. "EVEREST FSR rev H and supporting redlines"
